

CELEBRATE JAMESTOWN THEATRE WEEK

JUNE 1-5

We have a week of theatre for you including a look back at our award winning, original one act plays from the past three years.

MONDAY, JUNE 1 @ 7PM

IMMERSED

Immersed was our first foray into original works at Jamestown.

The play is set in Great Depression North Carolina & explores the impact of religion, leadership, & questions.

TUESDAY, JUNE 2 @ 7PM

THE HAPPENING

The Happening is a play about forgiveness and family set against dual backdrops of a school shooting and a families reaction to it.

***School violence and LGBT characters are part of the storytelling.*

WEDNESDAY, JUNE 3 @ 7PM

THE HEALING MACHINE

The Healing Machine explores the ability of art and creation to heal, inspired by a real life folk artist. The play is set in 1980s Nebraska.

In pre and post show interviews we catch up with some alumni and explore how we create original work together, how we tackle challenging topics, and how we use music in our storytelling.
